

Editorial

Dear Members of ITI, dear Colleagues

As we forgot to include the Congress Call for Performances of Young Practitioners in the last Newsletter, we send you the part of the Young Practitioners' Committee YPC again.

For an Young and Active ITI

As we have not found additional funds for young practitioners so far, we would like to remind you to include at least one young active practitioners in your Centre's team. According the Young Practitioners' Committee that is someone in the age frame of 18 to 35. Some Centres already started to bring younger people to earlier Congresses. Please form your team soon. Letters from the General Secretariat for travel support (foundations, ministries, etc.) can be asked for. Please send an email to the ITI Events Manager Aktina STAHAKI for getting a tailor-made recommendation letter: aktina.stathaki@iti-worldwide.org

Zika

People keep asking about the danger of getting the Zika virus. According to the information that ITI has received at the moment, the danger to be infected with the Zika virus by a mosquito in the Amazonas region is little. The recommendation is that pregnant women should not travel to Brazil. The best way of not getting bitten by a mosquito is to use a pharmaceutical or natural spray, cream or oil to

fend off the insect. These products can be bought in many countries or in pharmacies in Manaus. We keep you informed if the WHO gives out other information. Because of the Olympics are happening just after the ITI World Congress, websites of the Olympic Summer Games may give you further information.

Below you find the information about the Call for Performances for Young Practitioners.

Best regards from Manaus

Tobias Biancone
Director General ITI

Call for Participation / Appel à participation
