Activities 2015

The Macedonian FYROM Center of ITI is still in its pioneering stage.

World Theatre Day 2015 Celebration

The Macedonian theatre artist of the year 2015 is the theatre director Nela Vitosevic, a young, talented, active, and outspoken person.

She wrote the national message talking about the damages made by political parties and the resulting interference with the creation of art in theatre that favours the rise of the mediocre performances with symbolical self-censorship. It pushes away the audience by making the theatrical arts pointless.

The international message by Krzysztof Warlikowski. was translated into Macedonian by Maciej Kaczorowski www.facebook.com/media/set/?set=a.896531927056220.1073741850.697139220328826&type=3

International Dance Day 2015 Celebration

Igor Kirov was the Macedonian dancer and choreographer who wrote the national message. His attitude toward the art of dance is that it must be full of life, full of breath, full of passion and honesty.

The international message by Israel Galván. was translated into Macedonian by Ivana Stojkowska www.facebook.com/media/set/?set=a.913134485395964.1073741857.697139220328826&type=3
